a Scott Fetzer company

## GenLo™ Products

Adalet, a Scott Fetzer Company, is a leading manufacturer of hazardous location and general location enclosure systems and cable accessories. We have offered custom modification as well as standard products for more than 90 years. The company holds certification under ISO-9001 International Standards for Quality Management. Adalet markets a broad line of stainless steel and non-metallic enclosures including stainless steel 304 & 316L wall mount clamped cover enclosures, quarter turn latch enclosures, and JIC clamped cover enclosures. Non-metallic enclosures are constructed from fiberglass and polycarbonate and are available in a variety of sizes and styles.

## GenLo™ Products

Engineered electrical enclosures and accessories for general locations

NEMA 3, 3R, 4, 4X, 12 & 13

## N4X Series Stainless Steel Enclosures

For use in wet or highly corrosive areas, the Adalet N4X series wall mount enclosures are ideal for housing equipment which requires protection from corrosion or the elements. This stainless steel, watertight enclosure provides protection from dust, dirt, oil, and water.

- ◆ Seamless silicone based Foam-in-Place gasket offers higher temperature rating and a secure seal
- ◆ Hinged, clamped cover w/ padlock hasp and staple
- ◆ 304 or 316L material provides superior corrosion resistance
- ◆ Size range from 16x12x06 to 30x24x24

NEMA 3, 3R, 4, 4X, 12 & 13

## AVSS Series Stainless Steel Enclosures

The AVSS series enclosure offers a quarter turn latch design with a hidden hinge for easy wash down applications. Designed to be used indoors or outdoors, the AVSS series enclosures provide equipment protection in a wide variety of applications which are subject to frequent high pressure hosing or where extreme corrosion exists.

- ◆ Seamless silicone based Foam-in-Place gasket offers higher temperature rating and a secure seal
- ◆ Flush quarter-turn latch and hidden hinge design
- ◆ 304 or 316L material provides superior corrosion resistance
- ◆ Size range from 12x12x06 to 36x30x20

NEMA 3, 3R, 4, 4X, 12 & 13

## JN4X Stainless Steel Enclosures

Available with or without a hinged cover, the JN4X clamped cover enclosures offer a limited size range for smaller applications where large volume is not required. This wall mounted JIC style enclosure provides protection in generally wet applications and provide corrosion resistance in harsh applications.

- ◆ Seamless silicone based Foam-in-Place gasket offers higher temperature rating and a secure seal
- ◆ Clamped cover with hinge or as lift-off-cover
- ◆ Stainless steel hardware
- ◆ Welded on mounting flange

## Industrial Fittings and Cable Accessories

Adalet offers a range of fittings and accessories for use in general purpose of outdoor industrial applications. These fittings and accessories are used in conjunction with Adalet industrial enclosures and provide a wide range of sizes and hassle-free installation for a precise fit.

- ◆ Adalet "JAG" fittings provide a complete solution for terminating metal clad cable in wet or dry locations. Easy slip-on installation with no disassembly required. Size range from .351 to 4.62.
- ◆ Conduit ventilating cable supports and ventilators protect cable from rodents while allowing ample air circulation to cool conduit.
- ◆ Sky-Tie™ bus-drop cable clamps are used to eliminate trip hazards on the shop floor by suspending portable tools and air or water lines

## Non-Metallic Enclosures

Consisting of fiberglass and polycarbonate materials, Adalet's non-metallic enclosure offering provides rugged, component protection using lightweight materials. Adalet non-metallic enclosures are impact resistant, chemical resistance, and provided UV protection in indoor or outdoor locations

- ◆ Lightweight enclosures can support weight ranges up to 200 lbs.
- ◆ Up to 900 in/lb. resistance for high impact protection
- ◆ Watertight gasket is standard for NEMA 4 outdoor applications
- ◆ Easily modified with ordinary drills, hand saws, and hole saws

NEMA 3, 3R, 4, 4X, 12 & 13

## Stainless Steel Lighting and Power Panelboards

Designed for use in applications where harsh chemicals or hose down conditions exist, the Adalet N4XPB series stainless steel panelboards provide a watertight, corrosion resistant solution for controlling lighting and appliances, power circuits, and power distribution in industrial applications requiring branch power distribution, over current, and short circuit protection.

- ◆ Through the door operating handles or dead front, swing panel versions available
- ◆ Seamless silicone based Foam-in-Place gasket provides IP66 and NEMA 4X rated protection
- ◆ 12 Circuit through 42 circuit versions available with main lug or back fed main breaker
- ◆ Copper bus, isolated neutral, and ground bar are standard features
- ◆ Standard branch breakers from 10A through 100A as well as GFCI and EPD breakers are available
